Also, steeped in the Silicon Valley culture and teaches at the University of California, Berkeley since 2005.

This is our unfair advantage – Our Team

Execution

Real estate appraisals

Banking and risk

Banking technology and data science.

Problem

Appraisal and credit underwriting of commercial properties are

- ❑ Fragmented
- ❑ Extremely manual leading to tedious closing times – 2 to 3 months
- ❑ Process and methods have remained the same for over 20 years

Solution

Ripe for disruption with post pandemic “all things digital” society

- ✓ Digital appraisal with minimal human input
- ✓ Integrate with credit function for accelerated decisioning
- ✓ Online marketplace for borrowers, lenders and appraisers

Our Solution: mezza9.com

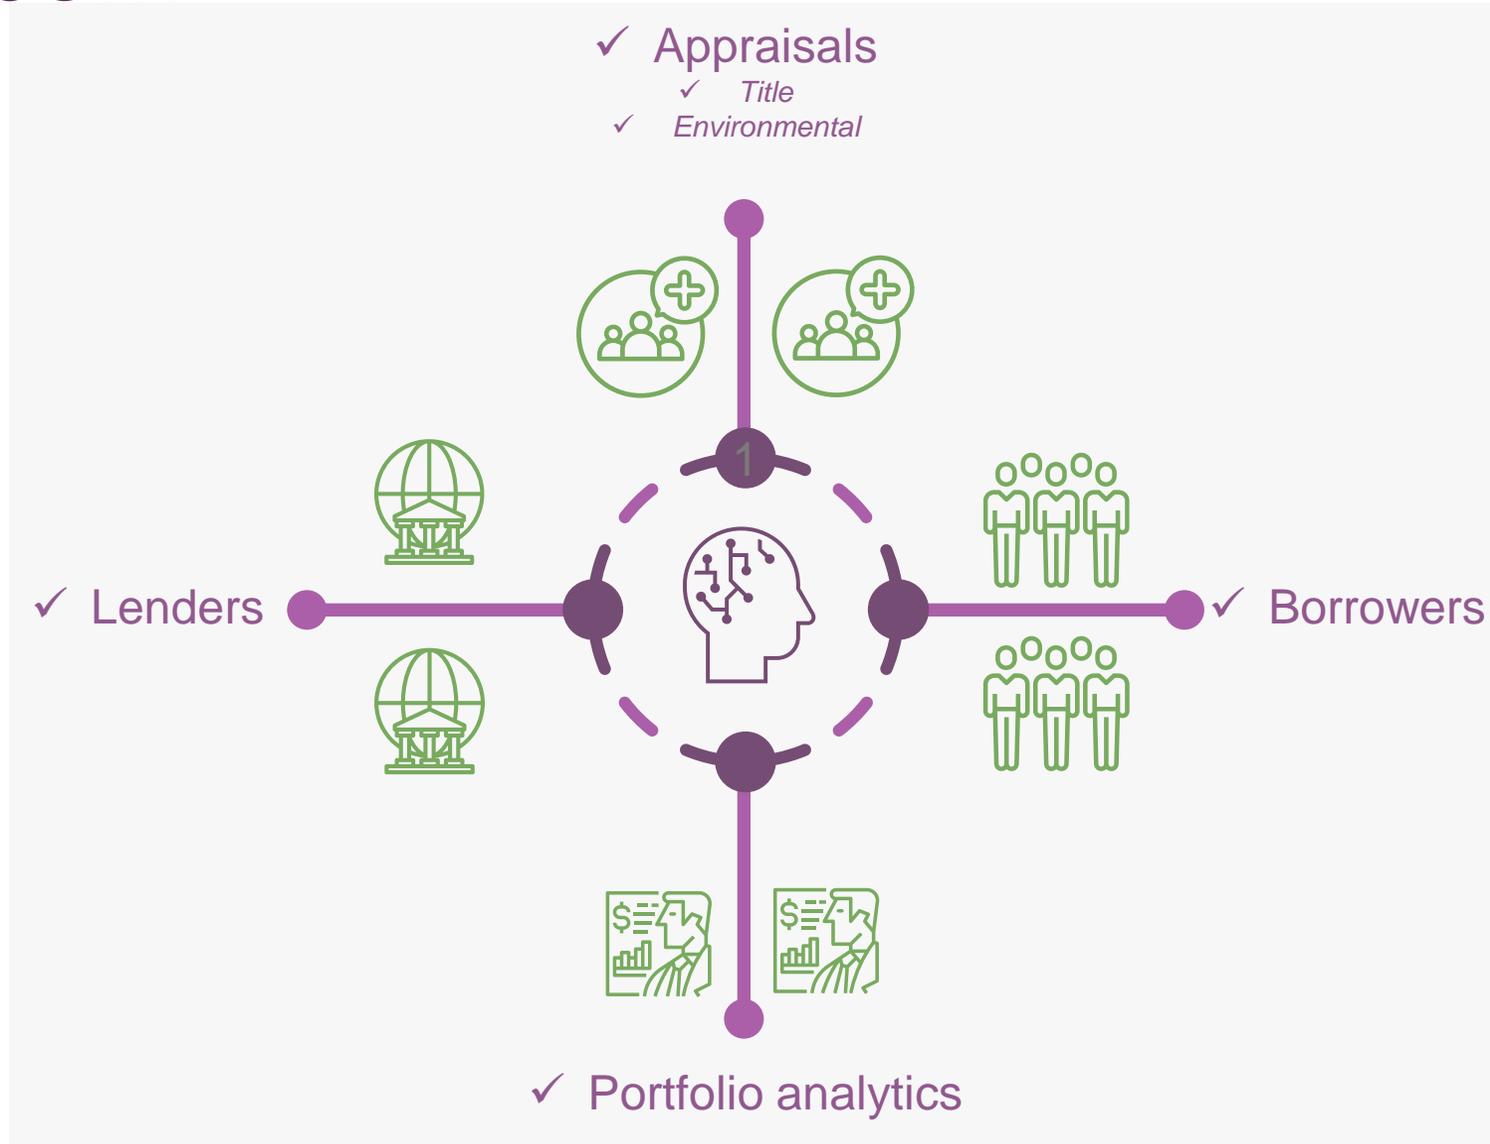

Use data and technology to

- ✓ Create one online platform for borrowers, lenders, appraisers and other service providers to exchange information
- ✓ Digitally enhanced property appraisals
- ✓ Accelerated loan decisioning

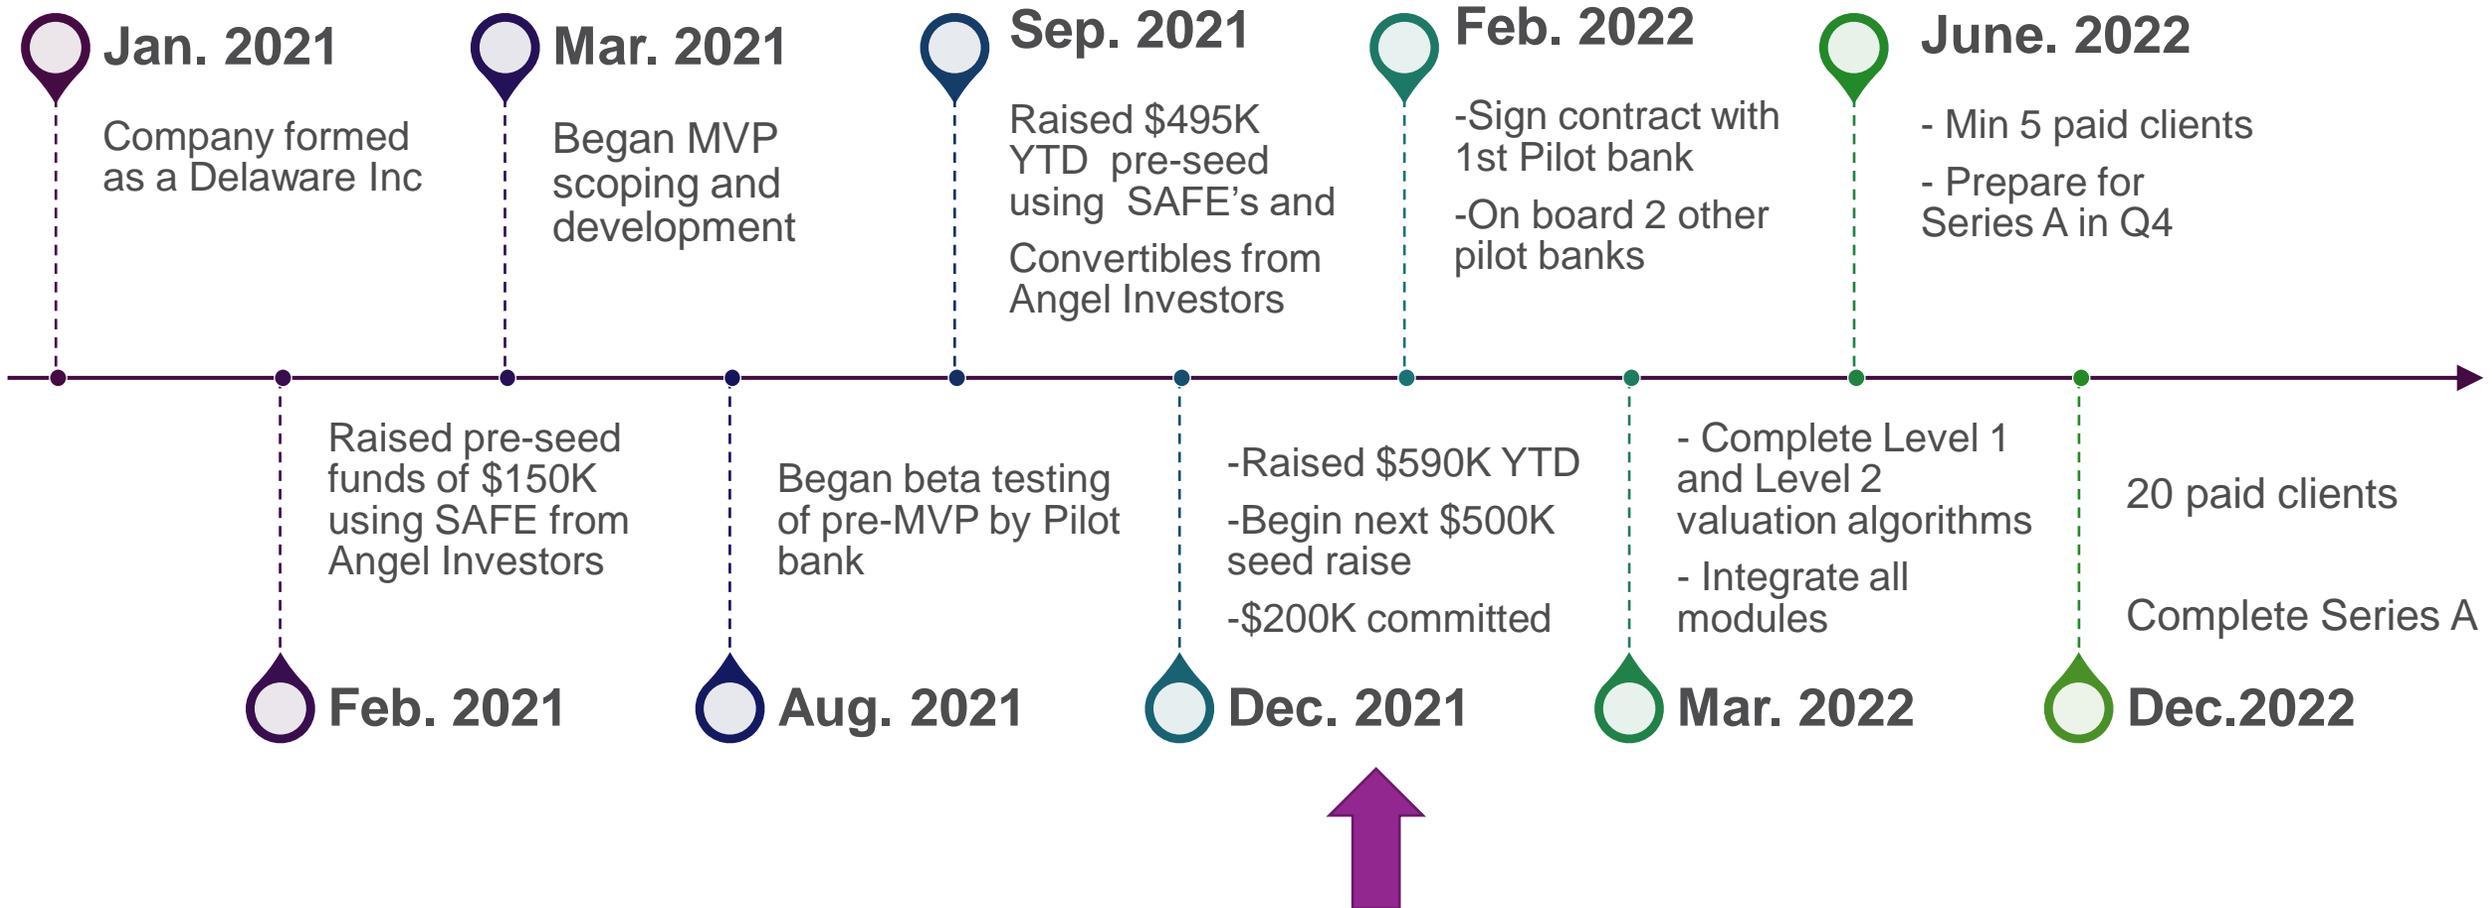

Immediate benefit not available in the market

- ✓ One application for both the appraisal department and loan department for our lending partners
- ✓ Borrower and Collateral can be pre-screened for quick “Go-No Go”
- ✓ On demand or frequent valuations of CRE portfolio as against once a quarter update

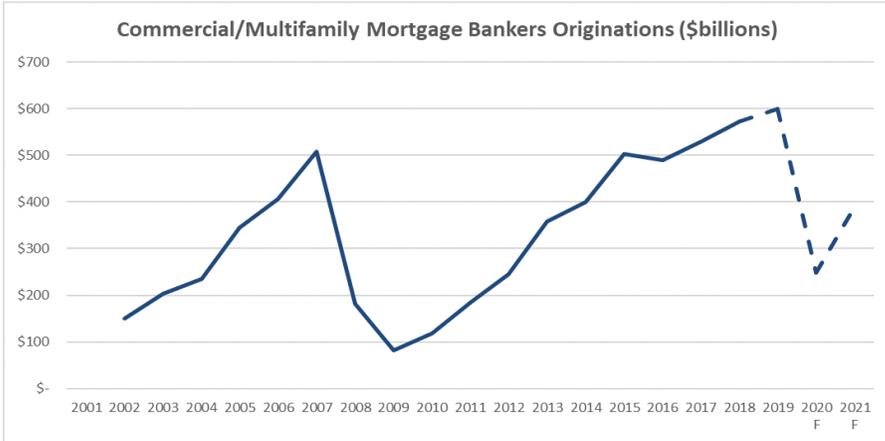

*CRE- Commercial real estate

History & short-term goals

Total addressable market

Asset Size	# Inst	Total Loans	Comm RE	Perc
>1 Trillion	4	3,519,022,891,000	205,692,000,000	5.85
100-999 Billion	26	3,020,355,165,000	269,828,810,000	8.93
50-99 Billion	17	781,393,816,000	129,098,972,000	16.52
5-49 Billion	197	1,979,700,149,000	499,658,881,000	25.24
1-4.9 Billion	629	877,001,663,000	262,660,914,000	29.95
500-999 Million	686	332,861,649,000	95,608,491,000	28.72
250-499 Million	1,001	237,103,345,000	62,145,161,000	26.21
100-249 Million	1,266	132,329,385,000	27,615,905,000	20.87
50-99 Million	586	25,098,877,000	3,515,488,000	14.01
0-49 Million	313	5,440,093,000	513,020,000	9.43
	4,725	10,910,307,033,000	1,556,337,642,000	14.26

For \$400 Billion loan volume, servicing cost are an average 2%.

- Origination – 0.5 %
- **Underwriting – 0.5 %**
- Servicing – 0.5 %
- Other – 0.5 %

For Example:

- A \$10B size bank holds about 20% in CRE or \$2B portfolio
- Approx. 20% is annual transaction or \$400mm
- If average loan size is \$2mm, they are making 200 loans / year
 - Cost of appraisal @ \$4000/loan = \$800K / year
 - 4 Full time analysts @ \$125k/year = \$500K / year
 - 2 Full time Sr. lenders @ \$200/year = \$400K / year
 - One or more software vendors = \$100K / year
 - **Total = \$1.8mm / year**

Source: MBANJ Conference speakers notes and from attendee conversations

About 800 lenders that fit our criteria spending \$2mm/year = \$1.6 billion / year market

★ This is our BASE case where we turn (gross) PnL positive beginning Q2' 2024

Long term plan – 3 to 5 years

- ✓ Possibility of partnering or getting absorbed by:
 - ❑ Banking technology giants like nCino, FISERV, FIS, Finastra, Jack Henry who can use our platform as a bolt-on.
 - ❑ PE firms backed by regional banks
 - ❑ Fintechs like BETTER.COM, UPSTART.COM, BLUEVINE.COM, who are in other lending products like personal, business, auto, residential mortgage etc who like to enter the commercial mortgage space.

Thank you
